

Haploidentical Transplantation 2016

Program Agenda

**Hotel Del Coronado, San Diego
Thursday, December 1, 2016**

9:30 AM – 11:00 AM — Registration/Check-in

11:00 AM - 11:05 AM — Opening Remarks: Stefan Ciurea, MD

11:05 AM - 11:30 AM — Keynote Presentation: Richard Jones, MD

— The development of PTCy: 50 years of translational team science

Program Chair : Stefan Ciurea, MD

Program Co-chairs:

Ephraim Fuchs, MD

Rupert Handgretinger, MD

11:30 AM – 1:30 PM Biology of Transplantation (Moderator Richard Champlin, MD)

Qing Ma, PhD - Post-transplant bendamustine vs. post-transplant cyclophosphamide for prevention of GVHD

Dean Lee, MD, PhD – Current and future expansion methods for NK cells

Yair Reisner, PhD - Next generation veto cells – combining anti-viral and graft facilitating activity

Jeff Miller, MD – Immune activation strategies to prevent relapse including IL-15, trispecific killer cells engagers and adaptive NK cells with immune memory

Peter Lang, MD, PhD – Anti-CD19-based immunotherapy post haploidentical stem cell transplantation in children

1:30 PM—2:30 PM Working Lunch

1:45-2:30 PM Best Haplo 2016 abstracts (5 abstracts)

2:30 PM—4:30 PM Clinical Applications (Moderator Ephraim Fuchs, MD)

Stefan Ciurea, MD – Haploidentical transplantation for acute lymphoblastic leukemia

Suradej Hongeng, MD – Haploidentical transplantation for thalassemia

Parameshwaran Hari, MD – Haploidentical transplantation for multiple myeloma

Samuel Strober, MD – Combined solid organ/hematopoietic stem cell transplants

Ephraim Fuchs, MD—Haploidentical transplantation for solid tumors

4:30 PM—4:45 PM Refreshment Break

4:45 PM — 6:45 PM Cell Therapy and Immunologic Reconstitution (Moderator Peter Lang, MD, PhD)

Jianhua Yu, PhD – Arming natural killer cells with chimeric antigen receptors for cancer treatment

Richard Maziarz, MD – Role of inducible suicide switch in cellular immunotherapy

Domenico Mavilio, MD, PhD - NK cell immune-reconstitution after haplo-HSCT: clinical and therapeutic implications

Denis-Claude Roy, MD - Immune reconstitution after haploidentical transplantation with photodepletion

Chiara Bonini, MD - T cell dynamics after haplo-SCT

7:00 PM — 8:30 PM Dinner and Reception
